Dear Editor,

We would like to submit the revised manuscript entitled “Fluvastatin attenuates hepatic steatosis-induced fibrogenesis in rats through inhibiting paracrine effect of hepatocyte on hepatic stellate cells” for your consideration for publication in BMC Gastroenterology.

In response to your request, we have revised our manuscript in light of your comments and made the required changes.

Request 1:
Please include all authors email address on the title page.

Response 1:
All authors’ email addresses are enclosed on the title page.

Request 2:
Please also include full name of IRB that approved the Animal experiments in method section.

Response 2:
Full Name of IRB that approved the animal experiments has been added in the method section (i.e. Institutional Animal Care and Use Committee (IACUC) of National Yang Ming University (No. 981266) and National Research Institute of Chinese Medicine (No.102-350-1), page 8 of the manuscript.)

Request 3:
Please separate Conclusions section.

Response 3:
In response to the Editor’s professional comment, the Conclusions section has been separated.

Your kind consideration and editorial arrangement of our manuscript is deeply appreciated.

Thank you very much.

With my best regards,

Yours sincerely,
Yi-Tsau Huang, M.D., Ph.D.
